

## Centers For Environmental and Climatic Interaction - A Case Study

**Asheville, North Carolina is home to the largest weather and climate archive in the world** and is at the center of our Nation's efforts to understand and live with the changing climate of our planet. The Centers For Environmental and Climatic Interaction (CECI) is working expand the knowledge of CECI's unique position as the gateway to the Asheville Climate Services Community. Stratos worked closely with CECI to create a website which can be maintained by CECI staff members using the Stratos Cirrus™ Content Management System and is completely scalable for future growth.

### Site Features:

- Unique graphic design and branding
- Cirrus™ Website Content Management System
- Full site search
- Embedded Flash™ animation
- Web video player with full screen playback
