

Our Humanity In The Balance — Case Study

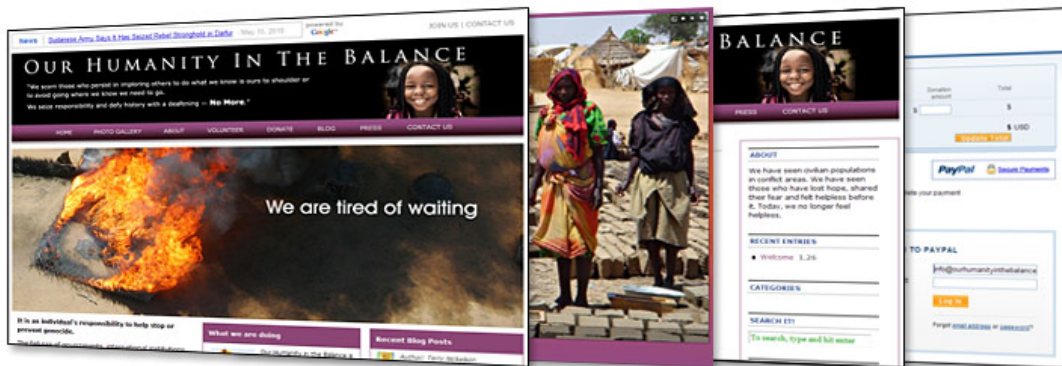

The vision of Our Humanity In The Balance is a clear and sobering response to the unrestrained genocide affecting so many of our fellow citizens — "The failures of governments, international institutions and the world's political elite to act and popular efforts to compel them to do the right thing leave no alternative.

We, the world's citizens, its ordinary mismatched individuals, take that responsibility and pledge to find non-governmental solutions to the mass killing of our fellow citizens, who are ordinary individuals like us. And by our humanity we will."

- vision statement, Our Humanity in the Balance

Site Features:

- Custom graphic design
- Integrated Blog with administration module
- Integrated Paypal secure payment gateway for donations
- Integrated Google news feed for breaking news
- Embedded Flash™ animation
- Photo gallery with full screen viewing, captions and automated playback
